SUMMARY

Part-time software developer/AI trainer. Just graduated with a bachelor's degree in computer science. Seeking a full-time or part-time job, preferably software development or IT. Friendly with a strong drive to succeed.

LANGUAGES

English (fluent, first language), Spanish (professional, second language)

EDUCATION

Bachelor of Science

Computer Science, Cal Poly Humboldt, Arcata, CA May 2024

- 3.582 GPA
- Computer Science Club Officer – Secretary (2023-2024 School Year)
 - Member in 2022-2023 School Year
 - Participated in April 2023 Hackathon, won an award for hard work.
- Supercomputer Club Member 2023

Certificate of Achievement

Business Entrepreneurship, Mendocino College, Ukiah, CA July 2022

- Floyd Ross Scholarship Recipient

Associate of Science

Computer Science, Mendocino College, Ukiah, CA May 2022

- Member of Phi Theta Kappa Honor Society

JOB EXPERIENCE

Software Engineer - AI Trainer

Outlier (Scale AI)

- December 2023 – Present
- Part-Time/Contract
- I help train large language models to write code. I do this by creating and reviewing training data for them, usually in the form of prompts, responses, and/or critiques of the prompts and/or responses. I work on multiple projects that train different models from each other. Depending on the project, I may do various tasks, such as writing or reviewing code in the training data.

New Item Cut In Representative

SAS Retail Services

- June 2023 – January 2024
- Part-Time
- I worked in 4 different Safeway locations in Humboldt County. I stocked store shelves with new items every week to make them available to customers. I worked independently to read/interpret shelving plans and determine the best and most strategic location for each item to increase its marketability. In addition, I maintained friendly and professional interactions with coworkers and customers, providing customer service when it didn't interfere with my main tasks.

SKILLS

Web Development:

- HTML5
- CSS
- PHP
- JavaScript
- Connection to DB via PHP and SQL

Databases:

- SQL
- SQL*Plus
- PL/SQL
- Oracle DBMS

Programming Languages:

- C/C++
- Java

Scripting:

- Bash/shell coding

Version Control:

- Git/GitHub

VOLUNTEER EXPERIENCE

Volunteer, Adventist Health Howard Memorial Hospital, April 2021

Willits, CA

- I volunteered at their free COVID-19 clinics in Willits. I helped direct people around the building where the vaccine clinic was taking place. I also helped someone who was in a wheelchair by pushing the wheelchair.

Volunteer, Ukiah Animal Shelter, February 2020

Ukiah, CA

- I played with cats and walked a dog.
